Municipal government restructuring

Road report identifies few savings

by Jerry Grozelle

County council appears to have rejected the idea of one tier government.

A report submitted by municipal and county roads superintendents showed a total overall saving of only \$178,000 to be gained in a one tier system of municipal government. That figure didn't take into account the capital costs that would be incurred changing the system from 11 departments to one. The economic benefits of a one tier government appear to be overshadowed by the costs of implementation.

Haliburton County Warden Murray Fearrey said that one tier government has been rejected "in principle", although he refused to say that it was completely out of the question.

"Servicing is the big problem," Fearrey said. "We have a small population in a big area."

During the County Council discussion, Fearrey handed out a copy of an editorial from the *Peterborough Examiner* which outlined Northumberland County's proposal to streamline its operations.

Under Northumberland's plan: council size would be reduced to five to eight councillors through the implementation of a ward system, with one representative per ward, rather than the current system of two representatives for most municipalities; core services would be

restricted to supervision of road standards; the provision and maintenance of waste management services.

Other services which are mandated

by the province would be operated separately, under the scrutiny of a management board comprised of three to five county council members.

The County would act as a facilitator only, for the co-ordination of

(more on page 7)

Annual Terry Fox run

FIRST OFF THE MARK: Beating the rush, these participants in the Minden Terry Fox Run were on hand for the start of the fund raiser shortly after 8 o'clock Sunday morning. There were many more to follow as young and old, cyclists, runners, walkers and children in strollers took part in the event. Preliminary figures showed that over 75 people took part. As of press time, just over \$4000 had been raised in Minden. A similar event was held in Haliburton Village. Final figures for the local efforts will be published in next week's edition

No easy task

Revamping county children's services

by Jerry Grozelle

"Needless to say, the meeting didn't go well," Eleanor Harrison reported to County Council at its regular meeting September 18.

Stanhope Deputy Reeve Harrison is Haliburton County Council's representative on the Family Services Board. She was reporting on a meeting September 12 between the board, Ministry of Community and Social Services (MCSS) representatives and other stakeholders.

Lynn Bullard, area manager of the MCSS office was the first to speak at the September 12 meeting. Harrison said her comments were positive. Bullard stressed the government's position on restructuring and added that the Family Services Board met the criteria the government is looking for, which includes a single transfer agency and one governance body to provide with easier access for clients.

The next speaker at the meeting, Harrison said, was Bob Penny of the Children's Aid Society (CAS). He indi-

cated that the CAS is willing to work with the Family Services Board in any way possible to make it work.

"He also stressed the document each of the divesting agencies signed following Bark Lake was binding and should be adhered to," Harrison said. "The ministry representatives were not certain how binding that document actually was."

"From there, the meeting went down hill rather quickly," Harrison continued. "The other three divesting agencies, SIRCH, SAC and Kinark, felt that many circumstances had changed since Bark Lake (a reference to a conference five or six years ago) and divesting of services was no longer necessary. The agencies feel they are working much more closely with each other now and will continue to do so in the future."

Harrison qualified the last statement by adding that the closer relationship was directly attributed to the new Board.

"'Collaborative partnerships' with other agencies was a phrase that was thrown around quite a lot," Harrison

said.

She said that the divesting agencies were apprehensive about taking over Child Welfare, but now that the Board has been denied its request to administer Child Welfare, they seem to think there is no need to amalgamate.

"Fellow board members Lon (Duncombe), Frances (Adams) and myself tried to stress that Haliburton County may never be given this chance again," Harrison said. "A great deal of money had been spent getting this far."

"If the Task Force or some other group is sent in to study Family Services in this county, who knows what will happen?" she added. "If the Family Services Board continues, at least we would be the masters of our own destiny, so to speak."

"Our Board is very much afraid that Family Services in Haliburton County could be governed by a much larger board from a larger area, with very little local representation," Harrison continued, adding, "The representatives from the Ministry did not deny that this very thing could happen."

Harrison told council that the FSB is ready to hire an executive director who is experienced in child welfare, and is prepared to move forward as quickly as possible with amalgamation in the hope of retaining as much local input as possible.

"We had hoped to be operational by 1997 budget time," she said. "However, the divesting agencies are definitely not co-operating in this regard. A consensus could not be reached and the decision of what happens to the FSB is now in Lynn Bullard's hands."

"Lon, Frances and myself were devastated, as were most of our Board members. The agencies who created us are now having second thoughts as to why we exist."

Harrison said that the agencies seem to be working toward an "enhanced status quo."

She wondered if such an enhanced status quo would meet the ministry's criteria for delivery of Family Services in Haliburton County and if it would meet the community and client needs in the future.

Carrol Moffatt receives Heritage Foundation award

Stanhope resident Carol Moffatt has been honoured under the Ontario Heritage Community Recognition Program. The award was announced earlier this month.

The citation, from the Ontario Heritage Foundation, read, "Due in large part to her energy and persistence, Carol Moffatt has at last seen her dream of a heritage museum in Stanhope Township become a reality. In 1995, a vintage council chamber building from 1910 was moved to a central location adjacent to the current municipal offices to serve as the museum. Ms. Moffatt is now cataloguing and documenting items for the museum and is in charge of finding appropriate furnishings, all on a voluntary basis. The new museum will help preserve the culture, history and heritage of Stanhope Township and promote awareness of the importance of heritage conservation for generations to come. As well as her work with the museum, she has also been an active member of the Municipal Recreation Program, the Municipal Firefighter's Association and the County Literacy Program."

In announcing the names of the recipients, Joanna Bedard, chair of the Ontario Heritage Foundation said, "All across Ontario, local residents are actively involved in preserving heritage through activities such as building restoration, writing local histories, conducting nature conservation projects and numerous other projects. Individually, these projects strengthen the community's appreciation of heritage. Collectively, these projects help to unify our province."

The award was one of 134 presented by the Ontario Heritage Foundation across the province and was the result of a nomination by the Stanhope municipal council. Moffatt will receive a parchment certificate and lapel pin. The presentation will be made by Stanhope Municipal Council at a future meeting.

(Carol Moffatt is a free lance reporter whose work has appeared in *The Times* and the *Toronto Star*. She has also written a series of articles for the seasonal publication *SummerTimes*.)

Saturday mishap near Dorset

Pair unhurt in float plane crash

A Collingwood couple was uninjured following a float plane crash on Bear Lake northeast of Dorset on Saturday September 21.

According to Minden/Coboconk Ontario Provincial Police, pilot Robert Percival had just lifted off from the surface of the lake around 2 p.m. when the aircraft stalled and crashed into the lake.

Following impact, the airplane turned upside-down. The couple managed to escape from the craft. Percival was accompanied by his wife Marilyn. They were unhurt in the incident.

The craft, owned by Percival, was described as a 'Murphy Rebel' light airplane. The value of the craft was estimated at between \$80 and \$100,000. The aircraft sustained serious damage in the mishap. It was towed to shore for removal from the water.

Police have notified the Federal Transportation Safety Board, which will be carrying out a further investigation. Pilot error is believed to have been a factor in the crash.

The incident was investigated by Constable A.C. Lee.

Chamber of Commerce makes cuts**Information Centre hours reduced**

The Haliburton Highlands Chamber of Commerce is not closed or closing.

Reports circulating through the community that the business organization was about to close because of financial problems are not true, says executive director Brian Dean. Speaking on behalf of Chamber president Connie Simms, Dean admitted the organization is facing some financial difficulties, however the Chamber executive is attempting to rectify the current situation and is exploring a number of fund raising options. He said on Saturday that nothing had been finalized and that the executive is continuing to explore its options.

The reports began circulating last week following several Chamber board of directors' meetings called to address the apparent funding shortage.

In response to the situation, Dean said the office staff had been "downsized". As a result his executive assistant has been let go, leaving Dean as the only employee of the organization. As well, the days of operation of the information centre on Highway 35 have been reduced to five a week. Until Thanksgiving, the information centre will be closed Tuesday and Wednesday each week. The move will mean that the office is open on the weekends when the visitor traffic is expected to be heavy during the fall colour season. After Thanksgiving, the centre will be closed on Saturdays and Sundays.

Dean explained that the Chamber had attempted to retire a number of debts left outstanding from the previous fiscal year. After having successfully accomplished that goal, the or-

ganization finds itself hard pressed for operating funds, resulting in the cut-backs.

Several attempts at fund-raising projects, including a plan to hold a raffle in which the prize was a cottage, have been placed on hold. While the main beneficiary of the cottage draw was to be health services in the Highlands, the Chamber could potentially have earned a small commission as co-ordinator of the draw. Other fund raising options are being explored.

Dean said the board is looking at smaller raffles which could have greater benefit for the community. (Several attempts to amend the Chamber's constitution to allow it to become involved in fund-raising activities in recent months have failed. At the most recent meeting, the constitutional

change could not be made because of the lack of a quorum.)

Dean noted that he and the executive had put a great deal of work into the cottage raffle during the summer months. "If someone wants to hold a cottage raffle, I've got everything they'll need. All they have to do is change the names," the executive director commented.

He said that Chamber members will have an opportunity to be brought up to date at the next business-to-business meeting, which is scheduled for October 2. As well, he noted that the organization's annual meeting is scheduled for the end of the next month and by then the board should be able to give the members an assessment of where the organization stands.

Only 560 difference between the two hospitals during 5 months**Hospitals emergency visits show summer increase**

According to figures tabled at the September 13 meeting of the Haliburton Highlands Health Services Board, the number of visits to the emergency department at the Minden Hospital was up significantly during July and August. In fact, the number of individuals who sought medical assistance at the Minden facility during the two months surpassed the number at the Haliburton Hospital.

The figures have been compiled by the Health Services Board since it assumed responsibility for the two facilities April 1 of this year.

During the months of April and May the report shows there were significantly more emergency visits to the Haliburton Hospital compared to the Minden facility. During that period, however, the Minden Hospital was operating on a 12 hour basis. That changed to 24 hours a day just before the Victoria Day holiday weekend in mid May.

At the September 13 meeting, board member and Haliburton physician Norm Bottum suggested that the emergency department visits at the Haliburton Hospital could have been affected by the introduction of a walk-in clinic in the community during the summer months.

The accompanying chart outlines the emergency department visits at the two facilities during the period between April and August. Emergency cases are classified in four degrees of urgency: Code A-Emergency; Code B-Urgent; Code C-Deferrable; Code D-Elective. This analysis is provided in the chart on the right.

Month	Hospital	A	B	C	D	Total
April	Minden	8	385	370	107	870

Outdoors Associations annual meeting

Speakers endorse annual bear hunt

by Jerry Grozelle

Guest speakers Chris Brousseau of the Ontario Federation of Anglers and Hunters and Mike Wilton of the Ministry of Natural Resources were two highlights of the Haliburton Highlands Outdoors Association Annual General Meeting September 15 at the Dysart Community Centre.

Brousseau outlined what bear hunters are up against from such anti-hunting groups as the Animal Alliance, the Bear Alliance, People for the Ethical Treatment of Animals (PETA) and even such traditionally neutral organizations as the World Wildlife Fund (WWF) and the Federation of Ontario Naturalists (FON). All of these organizations are in favour of putting an end to the spring bear hunt, and the practice of baiting bears and hunting bears with hounds.

"(For some) the goal is to end all hunting in Ontario," Brousseau warned. "They're waging a multi-media campaign, with posters, billboards newspaper and television advertisements. They've spent hundreds of thousands of dollars on the campaign."

Brousseau said they are using the divide and conquer strategy. The anti-hunting groups are forming alliances with each other to increase political influence.

Ontario currently has a healthy population of bears. Estimates range from 75,000 to 100,000. Brousseau cautioned that a decrease in hunting pressure would lead to an increase in nuisance

bear numbers. He said, if the hunt was cancelled, the population would increase in the beginning, leading to increased numbers of bears that would be destroyed and wasted. He added that an over abundance of bears would cause social stress within the bear population.

Misinformation is a tool the anti-hunters use to further their cause,

Brousseau said. They portray hunters as unethical people who shoot females with cubs.

"It is illegal to shoot female bears with cubs," Brousseau pointed out.

Brousseau also defended baiting, stating that it is much easier for hunters to identify females when they have the time to look them over at a bait site. The same holds true for hound hunters. With hound hunting, the bears usually climb a tree to escape the dogs. Tamed bears are also easier to identify.

Sea Lamprey

Brousseau talked about the federal government promising to continue with the Sea Lamprey Control Program and then cutting funding by \$1.3-million. He also spoke about new developments regarding the federal government's gun control bill. The prognosis was not good for legitimate gun owners,

but he advised gun owners not to give up.

Bilogist

Mike Wilton's presentation was also about black bears. He has been studying the animals for many years and he was able to offer some insight about their behavioural patterns.

He said that from a biological standpoint, he's convinced the bear population will remain higher in areas where they are hunted.

Wilton said that bears form a hierarchy within their social structure, with a dominant male at the top of the pyramid. Below him are a few subordinate males and so on down the list. Dominant males defend their territory fiercely, often killing subordinate animals, including sows and cubs.

Studies of bear attacks on humans, especially those that result in the deaths of the victims, have yielded some unusual statistics.

"Most people think that females with cubs are most likely to kill people," Wilton said. "In fact, it is almost always a large dominant male."

In 26 human deaths caused by black bears, 25 have been attributed to large males, most generally bears larger than 300 pounds.

With the facts he has gleaned

(more on page 16)

Chris Brousseau of the Ontario Federation of Anglers and Hunters addresses the annual meeting of the Haliburton Highlands Outdoors Association, September 15.

FOR YOUR INFORMATION

In Time Of Need

Sometimes we forget how fortunate we are to live in communities such as those in Haliburton County. We can grow accustomed to dealing with our friends and neighbours in satisfying our daily needs. From the local grocery store to the community bank, there is a sense of comfort in relying on folks you have always known and trusted. But what do you do when you are away from home and something happens to you or your family? Who do you turn to?

At Gordon A. Monk funeral homes, the caring service that we provide can help ease the burden of dealing with strangers, while facing unfamiliar issues, at a time of emotional stress. ONE COLLECT PHONE CALL to our funeral home and the necessary details for all funeral arrangements can be taken care of. Why take risks in dealing with someone you do not know?

We should all remember that Haliburton County has many very credible resources to rely on, even when we are away from home. Friends taking care of friends is what makes this community a special place in which to live.

Council briefs

County considers managing water levels

Items from the September 18 meeting of Haliburton County Council.

Committee to study waterway takeover

Three members of Haliburton County Council have been appointed to a committee to study the possibility of the county taking over control of the water system from the Trent-Severn Waterway. Trent-Severn has indicated it may privatize control of the waterway.

"This may be an opportunity for county personnel to look after water levels," said County Warden Murray Fearrey.

Councillor Bill Howe agreed.

"We should look at it very strongly," he said. "Unless we keep a close eye on it, we could be in trouble, especially in the headwaters here in Haliburton

County.

Councillor Bill Chalice added, "It's very important that we form a committee. The value of lakefront property depends on water levels."

"If you have to take your boat out of the water at the end of August there isn't much point in having a cottage," Fearrey added.

Council chose Bill Howe, Bill Chalice and Eleanor Harrison to form the committee.

Highway re-designation could be costly

A total of 95.6 kilometres of provincial highways are slated to be re-designated as county roads. Although the upfront money offered by the provincial

Hyland Crest cuts nearing the end

(from page 5)

take over responsibility for these roads is adequate, the cost of maintenance is a major concern for county officials.

The county will petition Transportation Minister Al Paladini, requesting additional funding to maintain these roads.

Estimates show that after the second year, maintenance costs for these roads would fall upon county taxpayers.

Hyland Crest staff cuts completed (almost)

In his report on Hyland Crest, county council's committee representative, Jock Mavor, noted that, with the exception of the laundry department, "all staff changes at Hyland Crest have taken place." He added that the changes have been supported by the home's staff.

Mavor also reported that the facility has shown a \$4,325 surplus for the past month.

More positive financial news is that Hyland Crest will be receiving a \$55,000 transition subsidy.

Provincial jail in Haliburton County?

Minden Reeve Jeanne Anthon said that she has learned, through unnamed sources, that Haliburton County is being considered as one of the potential sites for a provincial correctional facility.

When she was questioned about the source of the information, Anthon said she preferred not to elaborate, but she did say the source was "connected to the Attorney General's office."

Haliburton County had submitted a proposal some time ago requesting consideration as a location for a correctional facility. Council agreed that the proposal should be updated and resubmitted as soon as possible.

Minden Hospital realizes short-term surplus

In his Health Services Report, Sherborne Reeve Ross Rabjohn said he has attended eight meetings since the last county council meeting two months ago.

He said the Health Services budget has gone from a \$4,000 deficit at the end of May to a \$50,000 surplus by the end of July. Rabjohn said that the increased traffic at the Minden Hospital was largely responsible for the increased cash flow.

"Foster Loucks and his people have worked very hard to save money, and the doctors are accepting less

money for their services," he said.

Rabjohn added that a \$62,000 cut in funding is expected for 1997 and if the board ends the year with a deficit, services will have to be dramatically cut.

"The objective is to keep the Minden Hospital open 24 hours a day year round," he said.

On the capital side of the ledger, Rabjohn said the committee was ecstatic when the consultants presented a plan for the expansion of Hyland Crest to include Minden's hospital facilities. The enthusiasm took a reverse course when the cost of the proposed expansion was revealed. Without quoting actual figures, Rabjohn said the cost amounted to "half again" what was budgeted for.

"It was mind boggling -- an astronomical price," he said.

The consultants have been instructed to come up with a plan that fits within the stated budget.

Councillor Eleanor Harrison received the support of the rest of council when she offered a vote of confidence to Rabjohn.

"I think he's doing an excellent job (as county council's representative on the Health Services Board)."

Missing woman found after 18 hour search

A massive search effort was mounted Friday in the Tory Hill area. Three officers from the local OPP detachment, the OPP helicopter, two OPP Canine Units, a dozen members of the OPP Emergency Rescue Team, several members of the Haliburton County Search and Rescue Support Team and a number of Tory Hill area residents joined in a search for a 47 year-old woman.

The woman went missing at about 7 p.m. Friday and police were called an hour later.

Sergeant Art Goard said the missing woman was believed to be despondent. "She walked into the bush near her residence," Goard said.

The search continued through the night and it wasn't until 2:40 p.m. Saturday that she was found by one of the canine units about half a kilometre west of where she entered the bush.

"She was suffering the effects of hypothermia," Goard said.

The individual had also suffered minor injuries as a result of a fall. She was taken to Haliburton Hospital for treatment.

Single tier option for local government losing its appeal

(from page one)

such things as emergency services co-operative purchasing, planning, tourism and libraries. One person would have responsibility over all operations, reporting to county council. The committee system, which is currently in use, would be eliminated.

Savings realized from these changes would be passed on to the municipalities through a reduction in county levies.

Haliburton County officials were impressed enough with what Northumberland is proposing to invite the Warden and CAO to come to Haliburton County to speak at a council meeting. If Northumberland officials are unable, or unwilling to come to a meeting in Minden, Haliburton County is prepared to send a delegation to Northumberland for a meeting.

He explained that when the one tier (county level) government option was being studied, certain criteria were set out. Among them was the provision for the administration offices to be in a central location so all parts of the county would have equal access, at least as equal as is geographically possible. That would mean relocating the county's administrative offices closer to the centre of the county.

"That wouldn't be practical, especially since we have renovated the county office in Minden," Fearrey said. "Even the networking of computers would be a big expense."

Fearrey pointed out that the committee is at a disadvantage because the rules being set down by the provincial government are constantly changing. There's no point in rushing into a decision and then having to back off later because of changes in (provincial) government policy," Fearrey said. "We're working on a plan for the next hundred years."

As Councillor Doug Holman pointed out, "Restructuring is going to have far-reaching effects on everybody."

The Restructuring Committee will be examining, in close detail, the option of shifting responsibilities (commonly referred to as "who does what") to eliminate duplication of services.

If the committee finds Northumberland's model could be beneficial in Haliburton County, the result could be similar to what is in place now, with major shifts in responsibilities to maximize efficiency.

Fearrey said that a review by Cordillera Institute Director, David Barber, (who prepared official plans for some of the local municipalities) showed that past amalgamations have not proven to have the desired effect.

Barber stated that amalgamation of local governments should result in increased administrative efficiency and an increase in political accountability. But preliminary findings have shown results which have fallen short of expectations.

"The cost of local government has increased after

amalgamation," Fearrey said, adding that local governments have the potential to achieve efficiency and maintain their identity.

Fearrey said the amalgamation option has not necessarily been ruled out. Some municipalities may consider amalgamating with neighbouring jurisdictions as a step in the restructuring process.

The municipalities of Sherborne et al and Stanhope have already started working on a system of sharing services and equipment, in an effort to realize some savings. Other municipalities within Haliburton County are expected to follow suit.

Editorial

Few options left

Municipal politicians and their constituents can be forgiven if they are a little confused by the progress of the restructuring process currently under way in the county. So far there has been a great deal of talk, some studies and a plethora of mixed messages. To a certain extent, the wide variety of options, positions and opportunities were to be expected. The process calls for a complete assessment of what has been familiar to everyone from, what may be described as, time immemorial. Any changes in the past have been piecemeal, easy to understand and incorporated into the existing structure. This latest effort, driven by major changes in the financing of municipal level services, is supposed to be an all-encompassing project. The expectation is that the end result

will be a completely new look to municipal government throughout the province.

While the goal of creating greater efficiencies is an admirable one, perhaps, as the latest study in Haliburton County has shown, there are few if any savings to be realized by re-inventing the wheel. Perhaps, as the report on amalgamating the roads departments under one administration has indicated, there is little if anything to be gained by the process. That leaves the hard pressed municipal administrations with little to do but scramble for the savings available in sharing with neighbouring jurisdictions and cutting services. If the numbers indicate, for the moment, that is the only way to go, then so be it.

However as inviting as that route may appear, we are being told that the province intends to continue to shift more responsibilities, and their accompanying tax burden, to the lower levels of government. While tinkering with the existing system may provide efficiencies now, we fear when these new responsibilities are shifted from Queen's Park, the municipal governments will be unable to absorb them without drastic cuts in services or increases in taxes. Unfortunately, municipalities are at the bottom of the chain and have little power to reject or deflect what will be asked of them. The net result will be that while the two senior levels of government will be boasting about their shrinking deficits, the municipalities will be struggling to keep their heads above water.

Unfortunately, as the municipal representatives are discovering, there are no easy solutions to the situation.

jb

Walk 2 kms in students' shoes

Editor:

Your headline "Two km too far" (September 9) is certainly correct. I'd love to see Mr. Bradley, Mr. Robinson, Mr. Saunders and all of the Board Members who voted to make students walk 2 km to school buses, take these 2 km walks on one or more of our rural (Lutterswamp) Haliburton Roads.

•Walk # 1: the first really rotten day in November when we get mixed rain, snow and just plain miserable weather.

•Walk # 2: in late January on a day when the temperature is minus 40 degrees and every step is an effort.

•Walk # 3: at the height of the spring fly season when the mosquitos and black flies are in clouds.

After these, they might just sympathize with the parents and kids.

I also wonder just how many thousands of dollars (if any) were removed from the budget for bussing teams and individual competitors to football, soccer, field hockey, ice hockey, volleyball, badminton, tennis etc., competitions all over the area. I bet the budget was not reduced at all.

John Snobelen and his attacks on education are an insult to all parents and teachers. A letter to the *Toronto Star* the other day stated that the writer's son, in Grade 12, had more education than our

Minister of Education. It is time Mike woke up and appointed one of his excellent back benchers to head this imperfect ministry.

Bill Valentine,
Lutterworth.

Charge a fee for buses

Editor:

I, as a grandparent, am very disappointed with the cancellation of the school buses.

We just bought a house in May with my daughter, son-in-law and three grandchildren so they would get picked up at the end of our street by bus. We live 2 km from school.

That lasted 6 weeks - NO phone call, NO letter - just cancelled!! Thank you very much for your consideration!

We found out on the Friday before school started only because we wanted to know what time the bus would pick up our

6 year old. There are two other small children. The three of us have to juggle our schedules to drive and pick her up - she is NOT walking!

How much in tax dollars will the school lose when most of these children are absent when it rains or snows heavily? Hundreds of dollars per day, per child - and it will happen!

Is cancelling the school bus the right thing to do? Why not charge a fee per household per month or year as some towns do?

To the Board of Education, I quote Jay Leno "What the hell were you thinking?"

Margaret Chiasson

Red Cross needs blood donors

Editor:

The Canadian Red Cross recognizes that the citizens of our country need to have trust and faith in the blood supply. Canada's blood supply is recognized by international experts as one of the safest in the world. As a key participant in our country's blood system, the Red Cross takes great pride in this achievement and is dedicated to keeping Canada at the forefront where safety is concerned. Red Cross medical officers, nurses, technicians and staff in Blood Services strive to provide a level of safety people rarely expect of anything else in life. We do so because we care.

Red Cross personnel conscientiously check and screen all prospective donors to protect both the person who donates blood and the patient who will receive it. Before every donation, a trained health professional reviews in detail with each volunteer donor the questionnaire about his or her health. The questions are designed to identify risks to the donor in donating — such as when an individual has a health condition that could make donating blood inconvenient or unsafe — and risks of transmitting infectious disease by a donor. In order to be eligible to donate blood, the donor's responses to the health screening must be acceptable. Every blood donation is then tested for certain infections that might be transmitted by blood transfusion including syphilis, Hepatitis B and C, HIV and HTLV-1.

Donated blood that does not pass the

screening test procedures is destroyed, but a sample of the donor's blood is retested with a different confirmatory test to double check whether it really carries an infectious disease. Often these confirmatory results will show that the donor has no infection. Even though the first test, which is extremely sensitive, reacted positively, the confirmatory test may indicate that it was a false alarm. We call this a false-positive test result. Nevertheless, in the interest of safety, The Red Cross informs donors who test "false-positive" that they will not be permitted to ever give blood again. These donors are asked to contact their personal physicians for further assessment.

In the spring of 1996, The Red Cross implemented a new HIV-1 antigen test, which is state of the art. The new HIV-1 antigen test has shortened the window period by about 1 week. For a short period after infection with HIV, an individual may be infectious and capable of transmitting the disease, but will not test positive with the screening test. This is called the window period. The antigen test is expected to identify one out of every four window period cases.

The HIV-1 antigen test described above is another safety measure put in place by The Red Cross to protect people from infection through blood. But the most important line of defence for the children, women and men whose lives depend on donated blood is for healthy people to donate blood.

The blood program needs more than

5,000 volunteer blood donors every day in order to respond to the calls for blood from hospitals across Canada. This supply depends entirely on the willingness of people to take the time to make a generous gift of life. Most people in good health between the ages of 17 and 60 are eligible to be first-time donors (18 in Quebec). Those who have given blood in the past two years may continue to do so until their 71st birthday.

Each unit of blood can help as many as four patients. And it usually only takes about 60 minutes to be registered at the blood clinic, give blood, rest, have a refresh-

(more on page 10)

The rules

The Times welcomes signed letters to the editor on subjects of interest to our readers. Short letters are most likely to be chosen for publication, but the use of any material is at the discretion of the editor. The editor reserves the right to edit letters to meet space requirements, for clarity or to avoid obscenity, libel or invasion of privacy. Upon request, names may be withheld, but only very rarely and for compelling reasons. Letters published do not necessarily reflect the editorial policies or beliefs of this newspaper. All letters must bear the handwritten signature of the writer and include the address and phone number for verification purposes.

'...the bleached skulls of soothsayers...'

"Everything that can be invented has been invented."

Now who said that, do you reckon? Don Cherry? Preston Manning? Ned Ludd? Nope. Those prophetic words came from the mouth of one Charles H. Duell, chief Commissioner of the U.S. Office of Patents. Mister Duell made his prediction back in 1899 which means the world had yet to see roadsters, radios, rocket ships and rock and roll, not to mention penicillin, polyester, Prohibition and the Bay of Pigs.

But we shouldn't snicker too loudly at poor old Charlie. He is not the only "expert" ever to misread his crystal ball.

Take Lord Kelvin, president of the Royal Society of Engineers back at the turn of the century. Lord Kelvin cast a jaded eye at the heavens and pronounced, "Heavier-than-air flying machines are impossible."

Fortunately, the Wright boys were out working in the garage and missed the announcement.

If you were reading the New York Times back in 1939 you might have come across an editorial that concluded, "The problem with television is that people must sit and keep their eyes glued to the screen. The average family hasn't time for that."

Yeah. Right.

History is littered with the bleached skulls of soothsayers who should've kept

their traps shut. An internal memo that circulated in the offices of Western Union about a century ago confidently predicted, "This 'telephone' has too many shortcomings as a means of communication. The device is inherently of no value to us."

Embarrassing for the writer—but not as embarrassing as the prophecy put forward by a Yale professor of Economics named Irving Fisher. "Stocks have reached what looks like a permanently high plateau," he told an audience of businessmen.

Regrettably for the professor, he made the announcement in the late summer of 1929, just a few weeks before the greatest stock market belly flop in history.

Entertainment gurus fare no better. It was H.M. Warner of Warner Brothers fame who, back in 1927 when movies with sound tracks first appeared, he took his Havana Corona out of his mouth long enough to growl, "Who the hell wants to hear actors talk?"

And it was the movie genius Irving Thalberg who confided to fellow mogul Louis B. Mayer, "Forget it Louis. No Civil War picture ever made a nickel."

Mayer, like the stubborn cuss he was, went ahead and made *Gone With the Wind* anyway.

Then there was the producer for Decca Records who, back in 1962, panned a pop group saying, "We don't like their sound, and guitar music is on the way out." Thus Decca Records passed on a chance to sign

up a group called The Beatles.

I wonder what the producer is doing nowadays? Not working for Decca Records, I'll bet.

And what of the computer. Now there's an invention that touches all our lives in hundreds of ways every single day. Surely the experts caught the significance of the computer from the beginning?

Well, not quite.

In 1949, a writer for Popular Mechanics magazine wrote, "computers of the future may weigh no more than 1.5 tons."

In 1977, the president, chairman and founder of Digital Equipment Corporation announced, "there is no reason anyone would want a computer in his home."

Even folks who make the things aren't that bright when it comes to seeing their worth. Take the experience of a young computer geek named Steve.

"So we went Atari," Steve recalls, "and said, 'Hey, we've got this amazing thing, even built with some of your parts--what do you think about funding us? We'll give it to you. We just want to do it. Pay our salary, we'll come work for you.' And they said 'No.' So then we went to Hewlett-Packard, and they said 'Hey, we don't need you. You haven't got through college yet.'"

So Steve--that's Steve Jobs-- and his partner Steve Wozniak, went out and formed a company on their own.

You may have heard of it-- Apple Computer Inc.?

Etcetera

Arthur Black

The gift of life

(from page 9)

ment and leave. The blood donation itself takes up to 10 minutes. A donor can give blood every 56 days, or up to six times a year. There is no chance of the donor contracting a disease through the process of donating blood. A new sterile needle is used each time.

Statistics show that blood or blood products are needed by more than 600,000 Canadians every year. That means one Canadian every minute. Blood transfusions are crucial to accident victims and to patients undergoing an organ transplant. They save lives in complicated surgery and in the treatment of anemia and hemorrhage. Some components prepared from blood are

used to treat hemophilia, burns, leukemia and other cancers.

You or someone you know may require blood or blood products in the future. The Red Cross can continue to assist those in need of blood only with the generous help of many Canadians who give blood as a humanitarian gesture. You can make a big difference. The Gift of Life is the most precious gift of all for those who need it. Help The Red Cross help others! Drop in at a blood clinic. Someone is waiting.

Kay Kartes,
Blood Donor Chairperson;
Margaret Maxwell,
Branch Manager, Lindsay.

(Editor's note: the next blood donor clinic in this area is scheduled for Thursday September 26 at the Victoria Park Armouries, Kent Street, Lindsay.)

Heavy rains boost water levels: TSW report

Very heavy rains hit the Trent watershed and the Severn last week and resulted in considerable rise in the levels of most lakes along the canal route. These were up to 113% of normal when they are usually about 94% at this time of year. A huge surplus of rain (130+mm) which resulted in navigation closure from Buckhorn to Trenton. High velocities in the river sections of the canal and near the water control dams have made boating too hazardous in that area. Flows from Lakefield are now at about 210 cubic metres per second compared to the normal September flow of about 40 cubic me-

tres per second.

The Haliburton Lakes were up, in general by about 1.5% since last week, but the volume of water was nearly the same. Gull River flow was up near 26 cubic metres per second compared to the normal of 18 m3/s.

Not much decline of the reserve lakes is expected while the surplus exists. They contain about 13% more water than normal. Lowering to normal levels by Thanksgiving appears unlikely, especially if heavy rains occur again before then.

(Report released September 17.)

Weldon juniors no match for strong HHSS team

by Jerry Grozelle

Falling behind 7-0 in the first three minutes of the Kawartha West junior football game at Haliburton Highlands Secondary School last Wednesday didn't throw the Redmen off their game. By the end of the first half, the Redmen

had rebounded with a touchdown of their own and a two point conversion to edge into the lead going into the second half.

The I.E. Weldon Wildcats took a 6-0 lead on the first play of the game. The touchdown was converted for a 7-0 advantage.

Near the end of the first half, Haliburton quarterback Mike Morissette found tight end Matt Reid in the end zone and the lead was cut to 7-6. Darren Gilbert ran the ball in for the two-point conversion and an 8-7 lead over last year's defending champions.

The Haliburton offense really came

to life in the second half.

"It was the Mike Morissette show in the second half," said Haliburton coach Bruce Griffith. "He scored two touchdowns off the options play."

Darren Gilbert added a TD on a power running play.

The final score was 26-8.

Griffith singled out Jason Henry and Nathan Koz for their defensive play.

The Redmen will take on the LCVI Spartans this Friday in Lindsay. Griffith said he would be trying some new plays and giving the rookies more time on the field to gain some experience.

"We have to improve our kicking game," Griffith said. "We had a few penalties (against Weldon). They were mostly because of inexperience. We'll fix that."

Seniors skin Wildcats 29-0

The senior Redmen football team got off to a good start last Friday when the local boys tangled with the I.E. Weldon Wildcats of Lindsay. The Redmen decimated the Wildcats, romping to a 29-0 victory in Haliburton.

Mike Bradley, Darnell Gilbert, Darren Mills and Shane Parks crossed the Weldon goal line, picking up six points apiece for the host team.

Bradley's TD was the result of a long hard march upfield.

Gilbert scored his touchdown on a play action pass for 107 yards.

Mills crossed the line after picking

(more on page 13)

BOUND FOR THE END ZONE: Haliburton's Darren Gilbert charges into the Weldon end zone during Friday's junior Kawartha West football game at the Haliburton High School. The host Redmen overpowered the Wildcats 26-8.

Volleyball

UP AND OVER: Frank Schmohl, left, and Jim Coltman teamed up to defend their territory during the first night of Minden Mixed Volleyball League play at Archie Stouffer Elementary School last week.

Mixed volleyball League action under way

Minden's Mixed Volleyball League got under way last week at Archie Stouffer Elementary School.

The school is charging a small rental fee for the use of the gymnasium, so there is a \$3 per person charge for players each night.

The action will continue every Thursday evening from 7:30 to 9:30 p.m. until the end of the school year next June. Everyone is welcome to join in the fun.

For more information, contact Dana or Warren at 286-3594.

Registration Sunday, October 6

Kinmount Knights gearing up for 1996-97 hockey season

The Kinmount Knights are gearing up for the coming hockey season. Registration for the 1996-97 season will be held on Sunday, October 6, starting at 1 p.m. at the Kinmount Community Centre. Registration is \$25 per player.

The league is for boys and girls aged four to 15. Helmets with face masks and neck guards, as well as jocks are mandatory. Knee and elbow pads are recommended.

Ball hockey will get

underway Sunday, October 20 at the Kinmount Arena. The start of the ice hockey season will depend on Mother Nature. League officials are expecting the usual mid-December start.

Games are played every Sunday, with the different age groups taking to the ice at their own prescribed times.

Parent volunteers are needed for coaching, helping to dress the younger players and refereeing the games. A

sign-up sheet will be available at registration.

Any business or individual interested in sponsoring a team by purchasing sweaters would be appreciated. An increase in registration is expected.

For further information, contact Holly Lougheed at 488-3177 (evenings).

Registration will be on a first come, first served basis.

Specialty teams excel

(from page 11)

up a blocked punt. He also kicked four converts and accounted for a single point on a missed field goal.

Parks scored when he ran a punt return all the way.

Specialty teams accounted for more than their share of points for the Redmen as they humiliated the not-so-Wildcats.

Haliburton coach Tim Davies said the referee even commented on the effectiveness of the HHSS specialty squads after the game.

"I was really impressed with quarterback George Godfrey," Davies said. "He really reads the plays well. If he feels a planned play

isn't going to work, he will change it at the line of scrimmage and it usually works out."

Greg Simmons also got the coach's praise. Davies was very impressed with Simmons' tackling ability. Jamie Swinson was singled out for his "outstanding defensive play."

Fan support at the game was appreciated.

"I'd like to thank the parents, students and fans who came out to the game," Davies said. "We got a lot of support from the sidelines."

The senior Redmen were scheduled to take on the Lindsay Collegiate Spartans, along with the juniors, this Friday in Lindsay. But the senior Spartan team has folded. Davies said he hopes to arrange an exhibition game for Friday.

High School Football

Junior Redmen win two exhibition games

by Bruce Griffith

Haliburton Highlands Secondary School's junior Redmen football team scrimmaged against North Hastings Secondary School (Bancroft) during the pouring rain of Friday, September 13. The game was a warm-up for the coming season.

With a team of size and experience, Haliburton walked over Bancroft by a score of four touchdowns to one.

The team's weekend was highlighted by a trip to Waterloo Saturday to watch starting tailback Andy Bacon score two touchdowns for the Sir Wilfrid Laurier University Warriors, leading them to victory over the York University Yeomen.

After the big boys left the astroturf, the junior Redmen stepped onto the field under the lights to take on the St. Mary's High School team from Woodstock. The Redmen were looking for revenge for a loss last year in exhibition play.

Coaches Bruce Griffith, Gary Brohman and Dan Marsden knew they had a strong team, but as the game developed, everyone was amazed by the strength, speed and depth of this highly motivated group of athletes.

Starting tailback Devon Dart ran hard to score two touchdowns and have a third called back. Tailback Jon Swinson, coming off an injury, was determined to score and dragged several St. Mary's players across the goal line for one touchdown.

Linebacker Chris Moynes scored a rare defensive touchdown after a spectacular punt by quarterback Mike Morissette.

Starting fullback Jason Henry made many strong defensive plays, but was frustrated offensively when each of his three touchdowns was called back.

Flanker Greg Forgrave proved he is the man with the hands as he made an unbelievable catch in the end zone for a two point conversion.

The big hit of the game was by defensive end Darren Gilbert as he rocketed a Woodstock player into the end zone.

With a final score of 26-8, the junior Redmen happily climbed aboard the bus for the long ride home.

Both HHSS soccer teams lose 3-1 to LCVI Spartans

The HHSS junior Redmen soccer team lost 3-1 to Lindsay Collegiate in the opening game of the season Wednesday afternoon. The game was played in Haliburton.

Junior coach Paul Klose was pleased with the Redmen's showing even though they came out on the short end of the score. "They are a young team," the coach pointed out, "but they played like seniors. They were aggressive and not afraid to go after the ball. That is something we don't normally see until they move on to the senior level."

His remarks were echoed by former coach Walter Tose, who was watching the game from the sidelines. "They're a good looking team. I'm sorry I'm not involved this year," he said.

Tose relinquished his coaching duties because of increased teaching responsibilities.

The single Redmen marker was scored by Dan Vanderlip. He was set up by Joel Grossman.

In addition to praise for the effort of the entire team, Klose noted that Tim Keegle turned in a solid defensive game.

The HHSS boys play at home again this Wednesday when they take on the Fenelon Falls Falcons. Their game will begin immediately following the senior contest which is slated for a 1:30 p.m. start.

Seniors edged 3-1

Haliburton's senior boys' soccer team suffered a similar fate at the hands of the Spartans.

Ian Clements scored the lone goal for the Redmen near the end of the first half.

Lindsay notched one goal in the first half and two in the second to earn the win.

BATTLING FOR CONTROL: Haliburton's Rich Simmons battles with a Lindsay Collegiate player for control of the ball during senior action at HHSS last Wednesday. Both LCVI teams went back to Lindsay with 3-1 wins over the Redmen. In spite of the losses, both of the Haliburton teams played well.

Outdoors association annual meeting

(from page 4)

aren't more bear attacks than there are."

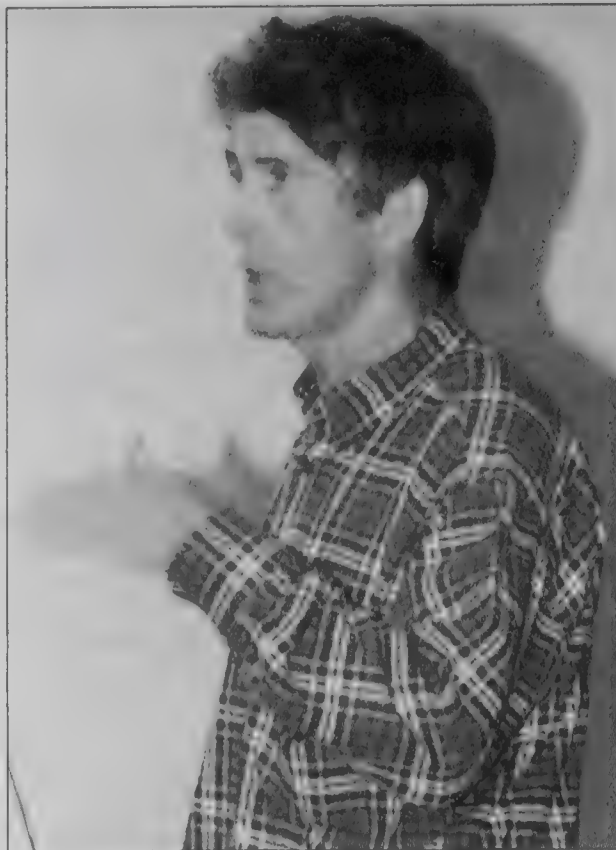

Because of funding cutbacks, the MNR had to back off on black bear research, but the World Wildlife Fund provided some funds so it could be continued.

Wilton pointed out that the MNR charges the use of equipment against the budget. A ministry Turbo Prop Beaver aircraft that was used for aerial surveys and radio tracking cost \$200 per hour. By hiring the services of a small private aircraft, the cost was reduced substantially.

Radio tracking has shown that it is not unusual for a bear to travel 10 to 15 miles in one day. It also revealed that bears use the same breeding range year after year.

Infrared cameras were used to document the times when bears came out of hibernation. By locating dens, researchers were able to set up the cameras to record the date and time the bears emerged. They found that most bears emerge from their dens around the end of March.

Wilton said bear losses were higher than usual last winter because of the length of the winter and the poor mast crop (acorns etc.) last fall.

MNR biologist Mike Wilton defended the annual bear hunt at the Outdoors Association meeting.

Help needed to locate graves

Legion Week honours veterans with Decoration Day service

Legion Week is an event that is unique to the Province of Ontario although there are plans to emulate this event in other provinces. It is meant to provide an opportunity for the public to become more familiar with the purpose and objectives of the organization. It also enables the branches to demonstrate or inform the public of their community activities.

One such, is the practice that has been established in Minden of holding a Decoration Day at our public cemeteries. During the past few years, we have attempted to mark the final resting places of local veterans by placing a white cross and red poppy on each known grave during the third week of September. This

Rabies clinics will help protect pets

Rabies continues to be a serious health concern in Ontario, according to a press release from the Haliburton, Kawartha, Pine Ridge District Health Unit. As a result, once again this year the Health Unit is working with local veterinary clinics to help prevent the spread of the disease. Pet owners are being encouraged to take advantage of upcoming low cost clinics to have their animals vaccinated against the disease.

Clinics are scheduled for Saturday, September 28 and October 5, between the hours of 10 a.m. and 2 p.m. The cost is \$10 per animal.

"Vaccinating your dog or cat is the safest way to protect yourself and your pets from contracting rabies," said Ron Chartrand, director of inspection services for the Health Unit. "It is also the law in Ontario. Pet owners are required to vaccinate their cat and dog each year."

The support given by local veterinary clinics in offering low cost vaccinations is a big part of the program's success. In 1995, within the Health Unit area, close to 9800 animals were vaccinated at the clinics, he said.

Rabies is a virus which attacks the nerves and brain rather than the blood. The virus is able to enter the body when an infected animal bites or scratches a person or licks an open cut. This is because the virus is in the saliva of the animals infected with rabies.

"If someone has been bitten or had contact with the saliva of a wild, stray or pet they should take immediate action," cautioned Chartrand. Thoroughly wash the bite with

soap and water immediately. Notify your doctor and contact the local Health Unit he advises.

To help protect individuals and their pets from rabies, the Health Unit recommends:

- pets should be vaccinated every year
- do not allow pets to run loose
- avoid contact with wild animals
- use gloves when handling dead animals
- set examples for children: teach them to stay away from wild animals and animals they do not know
- never attempt to break up a fight between two animals even if one is your pet.

Pet owners are reminded that when they attend a clinic, dogs must be on a leash and cats should be in a carrier.

Veterinary clinics in Minden, Haliburton and Cobocok will be participating in this vaccination campaign.

is presently being done at the Minden, Bethel and Boskung locations. However, we believe there are veterans buried in these cemeteries for whom we have no record - in particular those who served during World War One. As a result, they are not identified in this manner. We are soliciting the assistance of relatives and the public in general, to advise us of the names and locations of the graves of those who should be identified and honoured in this manner.

In addition, we would like to enlarge the program by identifying the graves in the Carnarvon area cemeteries of the Zion and Twelve Mile Lake Churches. If someone would offer to assist in this regard, I would be pleased to meet with them to further our work. Even having a list of names, although the burial location might not be known, would assist us greatly. Information may be left at the Minden Legion or you are welcome to contact me personally at 286-1573 to offer your help.

As part of this program, on the first Sunday of Legion Week, a Memorial Service is held - usually at the Minden Cemetery. To this, the public is invited to attend and participate. Unfortunately the weather was not co-operative this year and on short notice, we were forced to hold the service at the Minden Legion. Although we attempted to make the public aware of the change through announcements at the Church Services and by stationing representatives at the cemetery, we were not totally successful. To those who were inconvenienced, I offer my sincere apologies. I know that "to err is human" but will try to avoid such errors in the future, while still remaining human.

Fraternally yours,
H. Lloyd Johnson, Padre,
Branch 636, Minden.

T.C. Haliburton among 5 featured by post office

The man who gave the Haliburton Highlands its name, Thomas Chandler Haliburton, will be honoured, with five other Canadian writers in a series of postage stamps.

According to Canada Post, the five authors will be commemorated on a set of stamps that will be offered in booklets of ten, beginning October 10. In addition to

Haliburton, the other writers include Felix-Antoine Savard, Gabrielle Roy, Margaret Laurence and Donald Creighton.

All five stamps, valued at 45 cents, consist of computer enhanced portraits of the author with the opening lines from a major work. Alain

Leduc of Montreal designed the stamps. Official first day covers will be cancelled at Windsor, Nova Scotia.

Thomas Chandler Haliburton was born on December 17, 1796 in Windsor, Nova Scotia. He was the first Canadian author to gain international fame. Although he began his writing career as a historian, he is best remembered for his creation of the character Sam Slick-the Yankee clock peddler and cracker-barrel philosopher. The Clockmaker, originally appearing as a serial in The Novascotian, became the first Canadian best seller.

Contributions of Dr. Edward Staples are remembered at Norland United and Moore Lake

A longtime summer resident of Moore Lake and member of the Norland United Church, The Reverend Dr. Edward Staples passed away late last month. His death marked the end of an era on Moore Lake and coincided with the 111th anniversary of the Norland United Church. The life of Mr. Staples and the church were closely intertwined. Fellow church member and friend, Bona Duncan, paid tribute to both the individual and the institution, during the church service August 25 with the following words:

Anniversaries are a time to pause and reflect where we are going, building on a rich heritage. We remember important contributions and events and the people who helped shape this congregation.

Edward Staples was such a man. During the 111 year history of the church, he was involved during the last 80.

His father was one of eight men from Kane Pennsylvania who came to Moore lake in 1903 and created a fishing camp that is known to this day as "The American Colony". They built a central lodge (on land still owned by the original family), and tented on common land on either side of it for several years. In 1909, Edward Staples came here as a boy with his father. Over time, each of the eight fishermen purchased land, built cottages, raised families and forged friendships which continue as a strong community. Of the eight cottages, three are still owned by families of the original eight. Dr. Staples was the last of the second generation, as well as the oldest member.

Throughout his life, during the summer, this church in Norland had been a central focus of his family, now into the fifth generation. When not here Dr. Staples served the Methodist church in the United States as a pastor and administrator. His final post was as General Secretary for Christian Education. He filled his calling with great distinction at a time when the church was the largest Protestant denomination in the USA. During that period, the Methodist church also provided a valuable contribution with advances in Christian edu-

cation and evangelism. He was instrumental in bringing to print the monumental "Interpreter's Bible", a 12 volume commentary and dictionary of the Scriptures. The work has nurtured and sustained at least two generations of ministers of all denominations in preaching and teaching.

I am told the Presbyterians could not decide how to proceed with such a project and that Dr. Staples forged ahead and made it a reality for the Methodists. He helped create the groundwork which led to the ecumenical involvement and co-operation of most of the main-line North American churches in the production of Christian Educational materials. He was known internationally for his pioneering efforts in this area and his work remains a standard even today. The very qualities we experienced here, were the same ones he carried to the highest councils of the churches of the world. His humility, graciousness, patience, integrity and passion for the Gospel never varied in all of his endeavours.

We all have our own memories of this lovely man. For me, summer really began on July 1 when he and various members of his family arrived. It ended on Labour day when they left. In that two month period, it was our delight as a congregation, to greet the ebb and flow of the family as it changed through the summer: cousins, nephews, nieces to children, Peggy and Donald and spouses, followed by grandchildren and great-grandchildren. All were guided by his strong and loving presence. He was a patriarch in the very best sense of the word. It was his constant attendance in worship that gave flesh to his belief in the certainty of worship and the importance of the family's participation in the community of faith. Such conviction strengthened both the family and the church.

We remember the days when we were privileged to hear him preach and conduct worship. I always cherished those Sundays to hear his strong, solid Word and

An 80 year connection with the Highlands

(from page 20)

positive, confident preaching. He had a quiet and passionate manner that was the measure of the man.

He reminded me often of my own father. Both were rooted in Methodism and personified the great Methodist dictum of being "convicted by the Gospel." Both were always cordial to colleagues, caring for people, committed to evangelism and education. Both were gracious gentlemen who weathered the dry periods of ministry here with great patience and rejoiced in the times of creative ministry.

We remember his marriage to the sweet and lovely Elizabeth and recall his tender ministrations to her in the latter years as she succumbed to the limitations of Alzheimer's disease. Recently we saw the tenderness and intimacy offered to him by Peggy and the family as he aged and became more frail, particularly last summer.

Gladys spoke so eloquently of him a few Sundays ago and how we miss him. We will continue to miss

him while we are left with a sense of the rightness of his death now:

•last Sunday night, the original common lodge, built in 1903, burned to the ground.

•on Monday night, Dr. Staples died quietly, just as he lived.

•on Tuesday, Peggy and Ed Greiger's holiday was scheduled to be over and they left Moore Lake to gather the family to mourn, to rejoice and give thanks.

Today we celebrate a milestone in the life of this congregation and to give thanks for the life and death of Edward Staples and for all the saints who have worshipped and witnessed to our God in this Church.

It was a "Kairos" - in the fullness of time. All things come together to fulfil God's purpose.

We are left with a sense of peace that he is now in God's nearer presence and a sense of thanksgiving that he is restored to health and vigour and that we have been a part of his life.

He gave his church so many gifts. The doors to the

sanctuary were given in memory of his father. The hymn books he donated enriched our worship. He contributed generously toward the financial support of this congregation. But his greatest gift has been his presence among us for so many years, providing us with continuity with the past, hope and confidence in the future and faith in the ongoing witness to Jesus Christ here.

And so we honour this giant of the church, this gentle, dignified man, this strong and loving father this faithful servant and fellow worshipper. We rejoice that he now joins that great cloud of witnesses in time and eternity praising our God evermore.

Volunteers needed for seat belt count

On Saturday October 5, from 1:30 p.m. to 3:30 p.m., police services, safety advocates and government employees across the province will be counting drivers wearing seat belts in the community. The Ministry of Transport is seeking volunteers to join this province-wide event. Last year, 1500 volunteers participated in more than 140 communities.

If you want to take part in the seat belt count, this is your opportunity. A volunteer co-ordinator is needed to head up this project. The work is simple. The co-ordinator will create survey teams (as few as two people can make up a team) and fax the information to the MTO. Volunteers will receive, from the MTO, a seat belt kit, complete with T-shirts, a fact sheet on seat belts, data sheets for recording, instruc-

tions, safety guidelines and publicity tips. On Saturday, October 5 volunteers will take up safe positions at local intersections and count the number of drivers wearing seat belts.

Do you have a question? Do you require support or assistance accessing services? We can help. Contact your Haliburton County Information Centre Inc. In Haliburton the Centre is located on Maple Street in the Drag River Building. Phone 705-457-2733, Monday to Friday 10 a.m. to noon and 1 p.m. to 4 p.m. In Minden, Monday only, the Centre is located in the Court House Building, adjacent to the Anson, Hindon and Minden Municipal Office. Phone 705-286-4100 10 a.m. to noon and 1 p.m. to 4 p.m.

Want to Become An Entrepreneur? We Can Help Make Your Dream Become A Reality.

If You Already Have:

- A Great Idea
- A Desire To Be Self-sufficient
- High Energy Levels
- Lots of Ambition

But You Need A BUSINESS PLAN

This four week *Business Plan Development Program* will help you:

- produce a complete, comprehensive business plan
- meet professionals who can provide information on funding sources
- take the necessary steps to get your business started
- network with others intent on becoming successful entrepreneurs

The *Business Plan Development Program* gives you individual hands-on help with your business plan as opposed to another "how-to-booklet" that leaves you on your own to figure it out.

Class sizes are small; individual help is provided for the researching and writing of the business plan. Our professional staff are all successful entrepreneurs with extensive experience helping other entrepreneurs in writing plans, providing sources of legal and financial advice and using sound methods to research your business idea. If you want a **focused, no nonsense approach** that will give you a **completed business plan** you can take to your funding agency, this program is for you.

To be eligible for this program you must meet one of the following conditions:

- 1) currently in receipt of an Employment Insurance benefit;
- 2) have been receiving U.I. some time during the past 3 years;
- 3) have been receiving a maternity or parental leave benefit some time in the past 5 years.

If you do not meet the above criteria, you may register in the Business Plan Development Program on a fee for service basis.

For more information on program content,
call Mowbray, Frankum and Associates at 1-888-669-2729

For more information on Employment Insurance eligibility, call 457-1316

Program Dates: October 7 to November 1, 1996

This Week On T.V.

The listings are supplied by the T.V. stations. While every effort is made to ensure their accuracy, last minute changes may be made by the stations.

Not All Top Performers Were in Atlanta

Some were performing worthwhile community service in towns right across Ontario

Do you know a young person, aged 6 to 18 years, who is involved in worthwhile community service or a special person who is contributing, while living with a physical or psychological limitation? Do you know a youth who has performed an act of heroism?

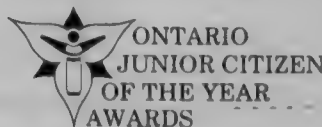

The Ontario Community Newspapers Association, with Bell Canada as the patron, is looking to recognize these "good kids"; the young people of our province who show a commitment to making life better for others.

To nominate an individual or a group of young people for the Ontario Junior Citizen of the Year Award, please contact this community newspaper or the OCNA at 905-844-0184. Nominations for this year's awards will be accepted until October 31, 1996.

Every nominee will receive a certificate and up to 12 individuals and one group will be the recipients of a plaque presented by the Lieutenant Governor of Ontario, an Ontario Junior Citizen of the Year lapel pin, \$200 and a family portrait with the Lieutenant Governor.

NOMINATION FORMS - are available by contacting this community newspaper or OCNA at 905-844-0184

Articles stir interest in family histories

by June Partridge

Our local newspapers carried many articles of genealogical interest this past summer. Articles which told the story of life-time residents and those who have grown up with a love of the Highlands

and now call it home. They told stories many of us have never heard before. This is a wonderful way to learn the history of our area and put a personal face to areas that we have used and come to appreciate. The stories of people finding relatives and renewing acquaintances

with relatives that had not touched their lives for a long time show genealogy at its most exciting phase. So often we search land-holding records, wills, marriage and birth certificates, and still feel that we do not know those who are our ancestors or those even in the current family line. Part of the appeal of the small town newspapers are the family stories and "who is visiting who". These show us relationships that we did not know about before and make those of us who grew up in large cities feel a little envious. We know that people who have lived here all their lives can look back at old issues of the paper and probably find some anecdote of a relative, a birth or death notice. For those of us who must struggle with old records it can be a long, arduous task.

Some interesting events are coming up that will pique everyone's interest and start us on our path again. The Region IX Meeting of the Ontario Genealogy Society will focus on research in the United Kingdom and emigration and migration within the United Kingdom. This meeting will be in the auditorium of the North Bay Public Library at 3:30 p.m. October 5. The speaker is Dennis Pearce, Librarian for the Hampshire Genealogical Society.

Two new publications are now on

sale from the Ontario Genealogy Society: *Handbook for Reading and Interpreting Old Documents* by Elizabeth Biggs and *Guide to Family History Research in the Archival Repositories of the United Church of Canada* by the Committee on Archives and History, of the United Church of Canada. Since the United Church turned down the request to allow the records to be put on microfiche, it is certainly going to be helpful to have this book available for genealogists.

The August 1996 issue of the *Families* magazine has a wonderful article, 'Organizing For Success in Genealogical Research'. The last chapter invites the reader to write a biography for one of his or her direct ancestors after having followed all the directions for organizing family records. Can you do this? If you can't then maybe the article will help put you back on the right path of fact finding.

Our first fall meeting at the Minden Library will be at 7 p.m. on the last Wednesday in September. At that time we can help with research problems.

And please keep April 25 to 27, 1997 open for the next OGS Seminar in Alliston, Ontario. Rural Roots & Other Connections will be the topic for that meeting.

Minden W.I. September meeting

On a pleasant September 18 afternoon, Doris Grant, our hostess, welcomed 14 members of Minden Women's Institute to the monthly meeting.

As the meeting opened, president Jean Cox mentioned that the Victoria East District past President Eleanor Crane died in August.

The president welcomed everyone to the meeting as we responded to the roll call by describing recycling of plastic containers. She reported that a good crew served tea at Hyland Crest and thanked all who helped. The meeting was also told that we had won the Group Crafts Prize at the Haliburton County Fair.

The flowers planted at the museum were colourful all summer.

The W.I. has received correspondence advising of a local history workshop in Lindsay on October 30. Our district director, Mary Cox, had attended a V.E. District executive meeting. The area convention is October 18 and 19 at Scarborough. The F.W.I.O. conference will be held June 17-22, 1977 in Hamilton. A big bucks Euchre will be held

October 31 at the Burnt River Centre, sponsored by Victoria East W.I. branches. They will need food and helpers. Everyone is welcome.

Irene Moore's report, read by Maud Coulter, indicated she had sent 29 cards for a variety of occasions over the summer. Collections were taken for the Pennies for Friendship and the card fund. Pennies collected by V.E. District for the past year amounted to \$282.80. Doris Grant then gave us some details from a conference, with information from a book entitled, "Let Me Decide". The book offered information on caring for someone through an illness. The video was not available, but will be at some future meeting.

After we adjourned, snapshots were passed around and tickets for convention expenses were sold. Our hostess and Beulah Hewitt served the lunch and a social half hour followed. Next meeting is October 16 at 2 p.m. at the home of Mary Wilson. All ladies welcome to attend.

Jeanne Sears, PRO

- Are you tired of one short-term, low paying job after another?
- Would you like a career that has potential for the future?
- Would you like to identify and make the most of your special skills and abilities?

If you answered **YES** to these questions,

then plan to attend the up-coming four week program called

Career Exploration

sponsored by HRDC.

This fast-paced program will help you:

- assess your current skills and abilities
- match skills and interests with careers with potential
- use current research methods to evaluate labour market information
- develop career goals and methods to reach them

At the end of the program you will have prepared a personal career plan including skills assessment, goals and objectives and a solid plan for reaching your career goals.

To be eligible for this program you must meet one of the following conditions:

- 1) currently in receipt of an Employment Insurance benefit;
- 2) have been receiving U.I. some time during the past 3 years;
- 3) have been receiving a maternity or parental leave benefit some time in the past 5 years.

For more information on program content, call Mowbray, Frankum and Associates at 1-888-669-2729

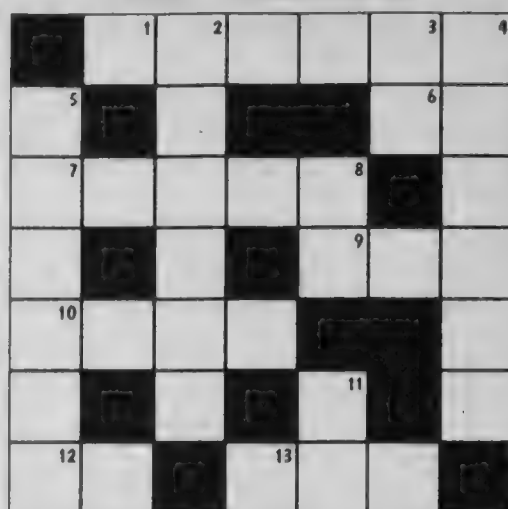

For information on Employment Insurance eligibility, call 457-1316

Program Dates:

Session 1 September 30 to October 25
Session 2 November 25 to December 20

NOTICE TO OWNERS AND RESIDENTS OF THE TOWNSHIP OF SOMERVILLE

PUBLIC OPEN HOUSE REGARDING PROPOSED NEW ROAD NAMES FOR THE TOWNSHIP OF SOMERVILLE AND THE PASSING OF A PROPOSED BY-LAW

The Township of Somerville is working towards establishing a municipal addressing system to improve emergency response. This new addressing can also lead to Township-wide Enhanced 9-1-1 Emergency Response system in the future.

The Township has developed proposed road names throughout its boundaries. A by-law pursuant to Section 210, of the Municipal Act will be passed.

An open house will be held to show the proposed names and the conventions used to provide each developed property with its unique address.

Representatives from the Township of Somerville and the County of Victoria will be available at the open house to present the proposal and answer any questions.

The open house will be held at the KINMOUNT HALL, ON HIGHWAY 503, WEST OF HIGHWAY 121 KINMOUNT, ONTARIO ON:

Saturday, October 5, 1996

Between 10:00 a.m. - 12:00 noon

Written comments will be received by the Council of the Township of Somerville up to October 18, 1996. The council shall hear any person who claims to be adversely affected by the by-law and who applies to be heard.

Address comments to:

MS ELINOR BURKE, CLERK, AMCT, CMM
TOWNSHIP OF SOMERVILLE
BOX 59
KINMOUNT, ON K0M 2A0

THE CORPORATION OF THE TOWNSHIP OF LUTTERWORTH PUBLIC NOTICE

File # SR-3/95

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Lutterworth, proposes to enact a by-law to stop up, close and convey to the abutting property owner a portion of the original allowance for road set out and described as follows:

FIRSTLY: ALL and singular those certain parcels or tracts of land and premises situate, lying and being in the Township of Lutterworth, in the County of Haliburton and being composed of part of the original sixty-six foot shore road allowance along the shore of Black Lake, lying in front of Part of Lot 27, Concession 8, and being more particularly described as Part 1 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R-6248.

THE PROPOSED BY-LAW will come before the said Council for consideration at its Regular Meeting at the Municipal Office, located three miles south of Minden on Highway #35, on the 10th day of October, 1996, at the hour of 4:00 p.m. and at that time, the Council will hear in person or by his or her counsel, solicitor or agent any person who claims that his or her land will be prejudicially affected and who applies to be heard.

DATED at the Township of Lutterworth this 3rd day of September, 1996.

Mary Jane Irwin, A.M.C.T.,
Clerk-Treasurer,
Township of Lutterworth,
P.O. Box 850,

Around the County Town

by Gord Graham (call 288-6506--FAX 286-3460)

Did you ever have one of those nights when you didn't want to go out but your hair looked too good to stay home?

The Museum committee will be meeting tomorrow, September 24 at 10 a.m. in the Common Room of the Art Gallery.

The Minden and District Horticultural Society are meeting at 7:30 p.m. in Hyland Crest on Tuesday, October 1. Elizabeth Carrell of Minden will be talking about "Fall Decorations".

Mr. James Dugan of Lochlin celebrated his 94th birthday last Friday, September 20. His many friends and relatives all joined to wish him happiness and many more returns of this day.

The Thorpes (Linda and Bernie) have just returned from a fabulous vacation in Texas, Arkansas and Graceland where they were celebrating their 20th wedding anniversary.

My face is my fortune - that's why I'm totally broke.

I would like to reiterate to all the people phoning in their weekly card results to please do so by 11 p.m. Wednesday evening at the number shown above and not to The Times. (I work from my home, not The Times office).

St. Paul's Friendship Club euchre results from last Monday had Iris Taylor

winning a high score and the 50-50 draw. Nora Briggs shared this prestigious level of high score as well. Lone hands went to Pearl Cowan and low hand to Irene Fuhr. Join them each Monday at 1:30 p.m. for friendship and games.

Here's a new entry to the card games going on around the County. Duplicate bridge is played Monday evenings at 7:00 p.m. in Haliburton's Drop-in Centre. It is an open ACBL game. Last week, Paul Fieldus and Mike Collins tied with Nick and Maria Lehoczy for first place. Third place was won by Mayme Douglas and Stella McMillan. Time out from bridge was taken in order to celebrate the birthdays of Kelly Metcalf and Vange Croucher. All enjoyed a piece of birthday cake.

Club 35, 9 km north of Carnarvon, hosts weekly euchres and last week the high scores went to Bill and Grace Cowen, low scores to Helen Lee, Stan Dutka and Helen Henderson, most lone hands to Garth Windsor and the 50-50 draw to Tom Pearson. Special prizes were awarded to Harry Randell and Dorothy Walters. There was also a Christmas ball light (made and donated by Tom and Mary Pearson) that was won by Helen Cooke of Halls Lake. Come and join the fun every Monday at 7:30 p.m. Partners are not required.

Club 35 has started bid euchre games every Friday at 7 p.m. Everyone is welcome then too. Partners still not required.

Contract bridge results from last Tuesday's fun produced a grand slam and 2 small slams. Everyone was equally excited over that. The grand slam was bid and made by Frank Jones and Gert Saamen while the 2 small slams were bid and made by Nick Lehoczy / Vange Croucher and Alex Stevenson / Betty Schlotter. First was Gert, second Vange and third Nick. Come on out and challenge yourself Tuesdays at 1 p.m. in the Stanhope Firefighters Hall. Partners are not required.

Seniors bid euchre is played Tuesdays at 1:30 p.m. in the Minden Legion. Last week Ann Baker was first, Gala Stamp second and tied for third were Walter Ackerblade and Milt Fletcher. Moonshots by Milt, Walt, Gala, Pat Rousselle and Iris Taylor. Hidden score by Grace Dixon and Marcel Rousselle.

Bid euchre continues on Wednesdays at 7 p.m. in the Stanhope Firefighters Hall. Last week they recorded 10 moonshots. Brian Henderson led with 324, Carol Duncan 283, Edith Russell 280, Lottie Ruttan 277, Betty Harper 276 and Pat Rousselle 273. Hidden scores by Mary Pipher and Helen Lee. Everyone welcome to come and join in.

Results of the euchre games played on Thursday, September 12 in the Minden Legion are high score - Marcel Rousselle and Ann Baker; low score - Marg Fletcher and Roy McDonald; lone hands - Harry Stuart and Betty Harper; other - Truman McNeil. Lila Mitchell

and Ellen Holden. They meet every Thursday at 7:15 p.m.

HEALTH CORNER Facts of Physiology

- Aerobic exercises increase metabolism (make muscles hungry) for up to 6 hours after exercise.

- A strong muscle constantly "eats" more than a weak one.

- Stored fat is used up in the opposite order than it was stored.

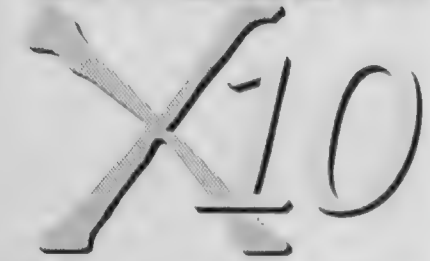

- Only "hungry" muscle cells use up (eat) stored fat. Fasting only makes you fatter.

- The more lean weight you have, the more food you may ingest without storing it as fat.

- One pound of human fat equals 3500 calories. One pound of human lean equals 250 calories.

- Use 'em or lose 'em! Unused muscles do not turn to fat. Instead, when not continually used, portions of the fibres fail to regenerate themselves.

CARDS OF THANKS

McELWAIN - We sincerely
wish to thank all of our many
friends, relatives and neighbours
for their kindness and tremen-
dous support during Debbie's
illness and our great loss.
Rick, Ryan and Shane.

CARDS OF THANKS

My son and I have the following
people to thank following our
recent truck accident in
Rosedale: God, for sparing our
lives; GM for building their
trucks "like a rock"; the four or
five local men who arrived on
the scene in less than a minute
and pulled us out; the two MNR
employees who phoned the po-
lice and gave us shelter in their
truck until the officer arrived;
Constable Hall whose quiet,
professional manner was very
comforting; the Fenelon Fire
Department whose men and res-
cue truck were at the ready; the
two ambulance attendants
whose services were not needed
but whose quick response was
appreciated; the tow truck driver
from Kawatha Garage in
Cobocok who very skilfully
uprighted our truck; the Lindsay
& District Telephone Pioneers
of America whose group do-
nated the teddy bear the FFFD
gave Michael; Paula, who picked
us up in Cobocok, drove us
home and supplied our supper;
our family and friends for their
concern and support.
**Thank you,
Brenda & Michael Callaghan.**

AT REST

**SEDGWICK
Garnet Wallace**

Suddenly at Extendicare Nurs-
ing Home on Sunday, Septem-
ber 15, 1996 in his 82nd year.
Beloved husband of Gladys
(Crofts) Sedgwick, loving fa-
ther of Susan and her husband
Brian Sisson, dear grandfather
of Megan and Ryan, brother of
Beatrice Crofts and her husband
Bill and Eva Neville and her
husband Roy.
Mr. Sedgwick rested at the
Gordon A. Monk Funeral Home,
127 Main Street, Minden from
2-4 and 7-9 p.m. Monday then
to Ingoldsby United Church for
Funeral Service on Tuesday,
September 17 at 1 p.m. Inter-
ment Ingoldsby Cemetery. Me-
morial donations to Ingoldsby
United Church would be appre-
ciated. A Legion Service was
held in the Chapel on Monday at
8 p.m.

IN MEMORIAM

WATSON: In loving memory
of a dear wife, mother and grand-
mother, Autumn Watson, Sep-
tember 26, 1995.
*God knew that she was suffer-
ing,
That the hills were hard to climb,
So He closed her weary eyelids
And whispered, "Peace be
Thine".
Away in the beautiful hills of
God
By the Valley of Rest so fair,
Some day, we know not when,
We will meet our loved one there.
A sadness still comes over us,
Tears in silence often flow,
Memory keeps you ever near us,
Though you died one year ago.
Sadly missed by your husband
Leo, Children and Grandchil-
dren.*
